TECTONOPHYSICS

Tectonophysics 255 (1996) 307–308

Contents Volume 255

Research Papers

The lithosphere below the Rockall Trough: wide-angle seismic evidence for extensive serpentinisation
B.M. O'Reilly, F. Hauser, A.W.B. Jacob and P.M. Shannon 1

Geothermal modelling of the lithosphere in the central Baltic Shield and its southern slope
I.T. Kukkonen and A. Jõeleht 25

Subduction of diverging plates and the principles of slab window formation
D.J. Thorkelson. 47

Concept of continuum as opposed to periodic tectonism in the Andes
C. Noblet, A. Lavenu and R. Marocco 65

Lithospheric extension northwest of the Central African Shear Zone in Sudan from potential field studies
A.E. Ibrahim, C.J. Ebinger and J.D. Fairhead 79

Gravity anomaly and flexural model: constraints on the structure beneath the Peruvian Andes
G. Fan, T.C. Wallace, S.L. Beck and C.G. Chase 99

State of intraplate stress and tectonism of northeastern America since Cretaceous times, with particular emphasis on the New England–Quebec igneous province
S. Faure, A. Tremblay and J. Angelier 111

Deflection of a compressional stress field by large-scale basement faults. A case study from the Tertiary Almazán basin (Spain)
A.M. Casas-Sainz and A. Maestro-González 135

Aftershock sequence of the 9 May 1989 Canary Islands earthquake
M.J. Jiménez and M. García-Fernández 157

Fluid inclusions in "Marmarosh Diamonds": evidence for tectonic history of the Folded Carpathian Mountains, Ukraine
M.O. Vityk, R.J. Bodnar and I.V. Dudok 163

Special Issue: Paleostress Analysis: A Tool in Structural Geology

edited by H. Stel

Preface 175

Estimation of the shape factor of a palaeostress ellipsoid by comparison with theoretical slickenline patterns and application of an eigenvalue method
E. Wallbrecher, H. Fritz and W. Unzog 177

Determination of deviatoric stress tensors based on inversion of calcite twin data from experimentally deformed monophase samples: preliminary results
O. Lacombe and P. Laurent 189

Pressure solution in siliciclastic HP–LT metamorphic rocks — constraints on the state of stress in deep levels of accretionary complexes
S. Schwarz and B. Stöckhert 203

Off-rift and rift-zone palaeostresses in Northwest Iceland
A. Gudmundsson, F. Bergerat and J. Angelier 211

Early Tertiary Eurekan palaeostresses in the Eastern Sverdrup Basin (Ellesmere and Axel Heiberg Island, Canadian Arctic Islands)
C. Lepvrier, J.T. van Berkel and W.M. Schwerdtner 229

Kinematics of convergence, deformation and stress distribution in the Taiwan collision area: 2-D finite-element numerical modelling
J.-C. Hu, J. Angelier, J.-C. Lee, H.-T. Chu and D. Byrne 243
Tertiary brittle faulting and stress field evolution in the Gerecse Mountains, northern Hungary
G. Bada, L. Fodor, B. Székely and G. Timár 269
Neogene evolution of the Sorbas basin (SE Spain) determined by paleostress analysis
G. Stapel, R. Moeys and C. Biermann 291
